Experience

Inshirah Tech

Full Time • Remote

Jul 2025 - Feb 2026

8 months

• Associate Mobile App Developer

Sep 2025 - Feb 2026 • 6 months

- Building cross-platform mobile and web applications using Flutter, integrating Firebase/Supabase for real-time data, authentication, and storage.
- Collaborating with the team to design and implement responsive, pixel-perfect UIs from Figma while integrating REST APIs, Google Maps, and other location-based services.

• Intern Mobile App Developer

Jul 2025 - Aug 2025 • 2 months

Education

B.Sc. in Computer Science & Engineering

BRAC University

Class of 2025

CGPA: 3.26

Completed a comprehensive curriculum including Algorithms, Computer Networks, Software Engineering, Artificial Intelligence, Database Management Systems, Compiler Design, and Computer Graphics. Gained practical experience through hands-on projects and coursework.

Actively engaged in research initiatives to complement academic learning.

Projects

Easy English Learning

Android App 

Easy English Learning is a simple app for Bangla speakers to learn English step by step. It covers basic vocabulary, sentences, grammar, and everyday conversations, making English learning easy and practical for beginners and learners looking to improve.

Simple Expense Tracker

Android App 

Expense Tracker is a simple and powerful app that helps you track your income, expenses, and budget, making it easy to manage your personal finances.

Floating Tasbih

Android App 

This app lets you keep a floating counter on your screen, so you can continue your Zikr while using other apps. It also features a full dark-screen mode, allowing you to count comfortably by simply tapping anywhere on the screen—ideal for use at night or when you want to minimize distractions.

Verbie

Website 

The all-in-one visual communication suite that grows with your child. Powered by AI, designed for families, and created by people that care.

Languages, Database, Libraries & Frameworks

Dart, JavaScript, TypeScript, Flutter, React, SQL, NoSQL, Firebase, Supabase, Bloc, Http, GetX, Get it, Go router, File picker, Image picker, Shared preferences.
