  Sep 2025 - Feb 2026 • 6 months
  - Building cross-platform mobile and web applications using Flutter, integrating Firebase/Supabase for real-time data, authentication, and storage.
  - Collaborating with the team to design and implement responsive, pixel-perfect UIs from Figma while integrating REST APIs, Google Maps, and other location-based services.
- **Intern Mobile App Developer**
  Jul 2025 - Aug 2025 • 2 months

Educations

B.Sc. in Computer Science & Engineering — Class of 2025
BRAC University

CGPA: **3.26 out of 4.00**

Completed a comprehensive curriculum including Algorithms, Computer Networks, Software Engineering, Artificial Intelligence, Database Management Systems, Compiler Design, and Computer Graphics. Gained practical experience through hands-on projects and coursework.

Actively engaged in research initiatives to complement academic learning.

Projects

Flutter Tailwind Breakpoints — Package
Opensource Project

TailwindCSS style, mobile-first responsive breakpoints for Flutter, with simple getters like context.sm context.md, and more.

Verbie — Website
Professional Project

The all-in-one visual communication suite that grows with your child. Powered by AI, designed for families, and created by people that care.

Easy English Learning — Android App
Professional Project

Easy English Learning is a simple app for Bangla speakers to learn English step by step. It covers basic vocabulary, sentences, grammar, and everyday conversations, making English learning easy and practical for beginners and learners looking to improve.

Simple Expense Tracker — Android App
Professional Project

Expense Tracker is a simple and powerful app that helps you track your income, expenses, and budget, making it easy to manage your personal finances.

Floating Tasbih

Android App
Professional Project

This app lets you keep a floating counter on your screen for Zhikr while using other apps. You can also count in a full dark-screen mode by simply tapping anywhere on the screen.

Ai Tutor

View Code
Pet Web App Project

AI Tutor is a Retrieval-Augmented Generation (RAG) application that uses semantic search to retrieve relevant information from PDF documents and generate accurate, context-aware answers based on the retrieved content.

Team Task Management

View Code
Pet Mobile App Project

Team Task Management is a Flutter app for managing and assigning daily tasks. It uses an ExpressJS backend and PostgreSQL database for reliable task management and data storage.
